THREE BROTHERS **ALL CHAMPIONS**

Corbett Family Has Remarkable Record.

HARRY'S QUEER REPUTATION

Is King Pin Stakeholder and Adjuster of Pugilistic Difficulties-Jim and Joe Ex-Champions.

Three brothers and all champions is record which makes the Corbett family unique in the history of sport.

But such is the record of the Corbett

brothers who, in the order of their fame, are Jim, Harry and Joe. Jim Corbett as former champion pugilist of the world, is too well known to require comment.

The other two are not so familiar to persons in the East.

Harry Corbett is the proprietor of the salson in San Francisco around which the pugilistic life of the city revolves. Matches are made in his backroom, and there the fighters weigh in unless they are required to make ringside weight. He is an authority on all sporting matters, and when there is a dispute be tween managers or fighters in the Coast town they tell their troubles to him. He has a knack of straightening out tangles, no matter how bad they may be, and has saved many a fight which was on the verge of being called off. Noted for Honesty.

Harry Corbett is noted for his honesty dling other people's money, and for that reason has acquired a reputa-tion throughout the country as a stake-holder. So much money has he handled that he is claimed by his friends to be the champion stakeholder and authority on matters pugilistic in the United States, if not the world.

Joe Corbett is a pitcher who had the coveted honor of being with the Baltinore team when it was in the heighth of its championship career and won the pennant three years in succession. His greatest success was with Baltimore, but he got in a huff with Ned Hanlon, who was managing there at that time who was managing there at that they and jumped to the Pacific coast. He remained there several years. Last year he was with the St. Louis National League team, but his success was not remarkable, and he is now again in

Frisco.

Jim and Joe are now ex-champs, but biarry is still on top of the pile and acquiring a wider reputation each day in his particular sphere of activity. How many other families are there whose only three sons have each become a champion?

It is said that "Montana George" Ambrose, of the Bookworms, is the only player of that team who has played in every game. We notice that Leech still sticks to his position.

John Anderson is the present acting manager of the Commerce and Labor team. Although some of his best men are absent from the team he puts a team on the field every time to prevent a forfeit game. That's the right spirit.

Johnny King ventured to play with the Metcalfites in the Commerce-Navy game. John did not stop a thing, nor did he hit a ball, but he insisted that that's the way they play the game in Penama

Mr. Venable, of Section B of the Church League, who has been handling the indicator in the absence of Umpire Betts, has been dealing out decisions to the satisfaction of the sideliners.

Sunders, of the Aggies, is the goods of the league in the twisting line. It is hard lines for him that he has no one on whom he can depend to pitch a game now and then so he can get a little rest.

The disposition to do away with the road speeding contest like that for the Bennett Cup is growing among European automobilists, and it is not unlikely that they will be done away with entirely, endurance tests being substituted. The objection to these races is not alone the danger to the participants and spectators, but it is held that they do not furnish a fair test for the machine and prove nothing. Any machine of standard make and high power will go much faster than it is possible to drive it, except in such races. What its neede, therefore, is, a test which will show the value of a machine under ordinary road conditions and in the future conditions for contests will be framed largely with this end in view.

It sounds strange that the question of preserving the large game in South Africa should be a subject of serious discussion. Yet so it is. The advent of the railway and the consequent ease and comparative cheapness with which the game country can be reached has been followed by the usual and natural results. From elephant to blesbok the game is disappearing, and it is stated in all seriousness that unless some action is soon taken to curtail the indis criminate slaughter big game will be as scarce in South Africa as the bison is on the American prairies.

Never have there been so many high-class horses stabled at the local tracks, class horses stabled at the local tracks, never has there been such large fields entered for the over-night events, never have there been such crowds at the tracks, and never has there been such brisk betting. Fully 40,000 people saw the Futurity run, and some days this week as many as 300 books have furnished the betters an opportunity to back their choices.

From now on until the close of the season on the big tracks, at Belmont Park, the fields that will compete will undoubtedly be the heaviest ever known. It is also a notable fact that in no past year have the rich stakes for the fall meetings at Sheershead Bay, Brighton, Gravesend, and Belmont Park been so liberally patronized, not only by Eastern owners, but by prominent horsemen from both Western and Northern racing
